ENFORCED PEACE 'VICIOUS,' AVERS SENATOR BORAH

Wilson Plan Called "Perfectly "Heinous" and "Indefensible in Morals."

INVITES JAPANESE WAR

Solon Says Idea Is Comparable to "Inviting Neighbors to Assault Own Family."

President Wilson's League to Enforce Peace program last night was denounced as "perfectly victous, perfectly hinous, and indefensible in morals" by Senator Villiam E. Borah, of Idaho, a minority member of the Senate Committee on Foreign Relations, and a Republican authority on international affairs. The address was delivered before the members of the Michigan Society at its annual dinner. Senator Borah said:

"But the singular and startling viciousess of this whole proposition of a league o insure or enforce peace is this: We enter the league, we contribute our por-tion of ships and of soldiers for a police force of the world-a force large enough and strong enough to crush those who do not submit their vital interests to arbitration and conciliation. Then some queson arises as to immigration, citizenship, for territorial propinquity to which we de-fine, as a people, to submit. Then we have agreed in advance that this force which we have helped to create shall at-

and assail us as a people. We in-te them here from Japan and from Eu-ope under a solemn agreement, previous-

shamed to talk about as we should be of covertly inviting our neighbor to as-sult our own family.

"There is such a thing left in the world

as nationality, as a national spirit, and I thank God for it. There are some things which no people under heaven with a sin-ple drop of patriotic blood in their veins could submit to arbitration or conciliation, and any scheme which would en-courage in advance an attack upon them for failing to do so is vicious to the last

U. S. ALARMED BY JAP CRISIS

Believed Here Mikado Will Support Party Inimical to America.

Grave concern was expressed in official circles here last night over the political crisis in Japan, where the house of rep resentatives has been dissolved by the Emperor because it was out of sympathy with the Terauchi ministry.

The State Department made public, without comment, the cabled text of excerpts from the speech delivered to the Diet by Foreign Minister Montone, of the Terauchi cabinet, before the dissolution of the house. A new election is to be called in April. The Terauchi cabinet has been accepted in this country as advocating an aggressive Japanese policy in China, and as favoring reopening the land

law controversy with this country.

The speech of Foreign Minister Montono, as made public by the State Department, recommended a "spirit of harmony" to "compromise" differences between the two countries. It set forth that the Japanese government, in regard to China, is considering an "economic rapprochement" with the United States, and declared that Japan must "evert all

rapprochement" with the United States, and declared that Japan must "exert all her energy" to prevent the collapse and dismemberment of China.

Field Marshal Count Terauchi was named premier by the Emperor last October. He_represents the radical militarist faction in Japan, and is looked upon as the champion of a radical pro-Japanese foreign policy. When it became apparent that the House of Representatives would not support the ministry, the Emperor dissolved the House, upholding the premier. The return of a House supporting the Terauchi ministry will be taken as an indorsement of its policies.

Minister Moteno said:

"The imperial government is constantly concerned about friendly relations with the American government and the American people. It is a fact that questions of such a nature as to injure somewhat the friendly relations between the two countries have occurred, but these questions have to a certain extent, been Working Basis Reached with satisfactorily solved."

NEW MOVE FOR PEACE Paris Paper Says Kaiser Would Fore-

in Germany that are reliable.

The Emperor's letter to Chanceller von Bethmann-Hollweg was written with this in mind, according to the l'Oeuvre's informant. The new move, it is stated, will follow along this general line:

"The allies are posing as future organ-izers of world peace. Since the allies re-jected my offer, but all adhere to the idea of universal peace, I will be the first pro moter of this peace, and propose that all parties meet forthwith to discuss the primordial article of war's ends, namely, the reorganization of future peace."
